**Website redesign aims to enhance public awareness of fire safety**

The Milton Fire Department encourages residents to visit the recently redesigned Fire Department section of the Town's website at [www.milton.ca/MiltonFire](http://www.milton.ca/MiltonFire).

The redesigned Fire section provides answers to commonly asked questions about the Milton Fire Department. More detailed information and resources are now available about fire prevention and public safety, as well as enhanced background information about the Milton Fire Department.

The section also contains more photos and a vivid home page displaying the Fire Department's aerial truck.

"One of the goals of the website redesign was to reflect the vibrant and active role the Fire Department plays in the community," said Town of Milton Fire Chief Brian Ellsworth. "While the Fire Department is an emergency service provider, we are always looking at improving fire prevention and public safety awareness – in order to avoid an emergency."

Information about the Fire Department is available in one convenient location in the revamped Fire Department section, and includes the Master Fire plan, news releases and statistics about fire-related activities.

"When someone visits our site, we want people to leave feeling the visit was a positive experience and that they learned something new and informative," added Chief Ellsworth.
